**DIGITAL MARKETING CAMPAIGN**

# PLATINUM MEDICAL CENTRE

*Your Health, Our Priority*

# BUSINESS & SERVICE OVERVIEW

Platinum Medical Center is a private outpatient clinic in Chitungwiza, providing general practice, maternal health, paediatrics, chronic disease management, lab services, and pharmacy ,all under one roof

01

## THE CLINIC

Full-service private outpatient facility in Chitungwiza, operating Monday–Sunday with qualified doctors and nurses.

02

## Services Overview

GP consultations, maternal & child health, chronic care (diabetes, hypertension), HIV/TB management, lab & pharmacy

03

## The Problem

Chitungwiza residentsdefault to overcrowded public hospitals due to low awareness of affordable private alternatives nearby.

04

## The Goal

Builddigital presence to educate the community on available services, build trust, and drive appointment bookings.

# Buyer Persona

Research into Chitungwiza's population informed a primary persona representing the household healthcare decision-maker typically a working mother managing family health needs.

**Mercy Dziva**

- WhatsApp primary communication
- Searches Google for health info
- Watches health videos on YouTube
- Reads community group posts

## Healthcare values

- Professionalism andexpertise

- Clean, modern facilities
- Compassionate bedside manner
- Transparent pricing
- Quick response times

# Strategic Objectives

All objectivesareSpecific,Measurable,Achievable, Relevant, and Time-bound. The campaign window is 90 days: 1 July – 30 September 2026.

01

## S — Specific M — Measurable A — Achievable R — Relevant

Increase patient appointments at Platinum Medical Center by 30% (approximately 90 new patient visits per month) through a targeted digital marketing campaign reaching Chitungwiza and surrounding areas.

02

## M

Track new patient registrations via front desk intake forms, Facebook page bookings, and WhatsApp appointment requests. Measure social media reach, email list growth, and monthly appointment numbers.

03

Based on a $300 budget and Facebook's average reach of ~800 people per $5 boost in Zimbabwe, 30% growth is realistic. Chitungwiza's population exceeds 340,000 — even 0.03% conversion meets the target.

04 05

Increased patient volume directly supports clinic revenue sustainability and fulfils Platinum Medical Center's mission to provide accessible quality healthcare to the Chitungwiza community.

## T — Time-bound

Campaign launches 1 July 2026. Monthly milestone reviews on 31 July and 31 August. Full evaluation and ROI report delivered 5 October 2025 covering the 90-day period.

# Campaign Goals

## 01 AWARENESS

Reach 8,000 people in Chitungwiza and Mashonaland East via Facebook and WhatsApp over 90 days, establishing Platinum Medical Center as a recognisable community healthcare brand.

## 02 TRUST & ENGAGEMENT

Grow Facebook page followers by 500 and achieve an average post engagement rate of 5%+, demonstrating community confidence through consistent health education content.

## 03 PATIENT RETENTION & LOYALTY

Transform Platinum Medical Centre from a clinic people visit into a clinic people belong to, a trusted health home for the entire Chitungwiza community, generation after generation.

## 04 APPOINTMENTS

Generate 90 new patient appointment bookings per month via digital channels (WhatsApp, Facebook, direct calls from ads) by the end of the 90-day campaign period.

- Google search optimization
- Community health resources
- Patient education content series

# By the Time It Hurts, It's Already Too Late , Protect Your Smile the Right Way

Muchitungwiza, life is busy. Between work, school runs, and the daily hustle from Zengeza to Ziko, Dema, dental health is often the last thing on our minds, until a toothache wakes us up at 2 am and suddenly it's all you can think about.

## Small Problems, Big Consequences?

The truth is, most dental problems that end up being expensive and painful started out as something small, something that a simple daily habit or a timely dentist visit could have stopped. At Platinum Medical Centre, we see this every week. A patient comes in with a tooth that needs extraction when, six months earlier, it could have been saved with a filling.

## How to Protect Your Teeth

### It Starts With Consistency, Not Expensive Products

Protectingyourteeth doesn'trequireexpensiveproductsor complicated routines. It requires consistency. These are the habits that make the biggest difference:

## How to take care of Your Teeth

## When to See Your Dentist

Pain Is Not the Starting Point. It's the Warning You Ignored
There's a common belief in many Zimbabwean communities, including here in Chitungwiza, that you only go to the dentist when something hurts. But by the time there's pain, the problem has usually been developing for months.

*A healthy smile is not a luxury. It is the foundation of your confidence, your nutrition, and your overall wellbeing. And it starts with what you do every single morning and night.*

Education Post

DID YOU KNOW? HIGH BLOOD PRESSURE HAS NO SYMPTOMS UNTIL IT'S TOO LATE.

Hypertension (high blood pressure) is called the "silent killer" because most people don't know they have it until they suffer a stroke or heart attack. In Zimbabwe, it affects 1 in 3 adults over 40.

The good news? A simple check takes 5 minutes and can save your life.

For more information:
📞 Call or WhatsApp us to book: +263 071 929 7894

To:Chitungwiza Community Patients <subscribers@list>
Subject: July Health Update Free Consultation Offer & What's New at Platinum

July is here and so is a brand-new month of health tips, updates from our clinic, and a very special offer for all new patients visiting us for the first time this month. We hope you and your family are keeping well.

# Email Patient Nurture Sequence

Our free health guide is here, plus a message from our team

Dear Shalom Maraire,

Thank you for signing up. Your free "Know Your Numbers" health reference guide is attached to this email. We hope you find it useful. Keep it on your phone or print it and stick it to your fridge.

We are Platinum Medical Center, a private clinic right here in Chitungwiza. We opened our doors because we believe that every family in this community deserves quality healthcare — without the cost and distance of travelling to Harare.

Our team of qualified doctors, nurses, and lab staff is here six days a week, ready to help with everything from a child's flu to the management of chronic conditions like diabetes and hypertension. Over the next few days, we will share some useful health information and let you know exactly how we can support you and your family.

Warmly,
The Platinum Medical Center Team
Chitungwiza, Zimbabwe

Your first visit to Platinum Medical Center a special welcome offer

Dear Lisa Munoti,

We would love to meet you. To make your first visit easy, we are offering a discounted first consultation for new patients who book this month. Just mention this email at reception.

Here is what happens when you visit us:
✅ You are greeted by our reception team and registered (5 minutes) ✅ Your vitals, i.e., temperature, BP, and weight, are recorded by our nurse
✅ You meet with a qualified doctor who listens to your full concerns ✅ Any required tests are done in our on-site lab — same day results ✅ You leave with a clear diagnosis, treatment plan, and prescribed medication from our pharmacy
No rushing. No dismissiveness. Just honest, professional care for you and your family.

To book, simply WhatsApp us at +263 071 929 7894 or walk in any day, Monday–Saturday, 8 AM–5 PM.

We look forward to welcoming you.

Platinum Medical Center, Chitungwiza

| WhatsApp Business( | $10 | 3% |
| **Total Monthly** | $300 | 100% |

**$300 Campaign Budget for July – September 2026**
A lean, high-impact budget designed for a community clinic operating in a price-sensitive market. Prioritises paid social reach and relationship-building tools over broad advertising spend.

Why 45% on Facebook Ads?
Facebook remains the dominant platform in Chitungwiza with deep penetration among our primary persona (ages 28–50). At Zimbabwe's average CPM of ~$0.30–0.80, $135 buys 170,000–450,000 impressions hyper- locally — unmatched reach for the budget.

Why invest in content?
Real photos/videos of the clinic, staff, and facilities outperform generic stock imagery by 3–5× in engagement. One $60 shoot creates 6+ months of authentic social content, email assets, and website imagery.

# How to Calculate ROI

ROI Formula — Platinum Medical Center Campaign

$$\text{ROI (\%)} = \frac{\text{Revenue from New Campaign Patients} - \text{Campaign Cost}}{\text{Total Campaign Cost (\$300)}} \times 100$$

**Conservative Scenario:**

**270 new patients × avg. consultation fee of $8 = $2,160 gross revenue**

**ROI = ($2,160 − $300) ÷ $300 × 100 = 620% ROI**

**Optimistic Scenario (with lab & pharmacy upsell):**

**270 patients × avg. revenue per visit of $18 (consult + lab + meds) = $4,860**

**ROI = ($4,860 − $300) ÷ $300 × 100 = 1,520% ROI**

**Note: These figures represent revenue from campaign-attributable new patients only. Repeat visit revenue and patient lifetime value (LTV) over 12 months would significantly increase the effective ROI. A patient returning monthly is worth $96–216/year.**

# CONCLUSION

## What This Campaign Set Out to Do

From the very beginning, the goal of this campaign was clear: to close the gap between a quality healthcare provider and the community it was built to serve. Platinum Medical Centre offers world-class medical services, including general consultations, maternal health, laboratory testing, chronic disease management, and more, right on Seke Road in Chitungwiza. Yet many residents in Zengeza, St Mary's, Makoni, and surrounding areas either do not know the clinic exists or believe that quality private healthcare is beyond their reach. This campaign was designed to change that.
